

REMARKS:

Applicant hereby elects Invention I to which Claims 1 to 12 are directed.

Claims 13 to 23 are cancelled.

Applicant hereby traverses the requirement for restriction on the ground that the Examiner's indication of a separate utility for Inventions ii, iii, iv and v is completely unreasonable. It is simply not understood how a claim directed to a greenhouse and a lighting system therefor could find utility as for example a "sleeping quarters for a group of person (sic)". It appears that the Examiner is merely selecting a noun which has no connection with the subject matter in hand. The Examiner may just as well have selected as an alternative utility an "oil tanker" or a "space ship" since none of these is in any way connected with the subject of the greenhouse, including a plurality of lighting fixtures, to which the invention is clearly limited.

Respectfully submitted

DAVID BRAULT ET AL
